EDUCATION

American University, College of Arts and Sciences **Washington, DC**
Bachelor of Science in Statistics *May 2027*
Specialization: Applied Statistics; Minor: Mathematics
GPA: 3.91
Relevant Coursework: Regression, Mathematical Statistics, Data Mining, Machine Learning
In Progress: Database and AI (SQL), Numerical Analysis, Advanced Machine Learning

WORK EXPERIENCE

Curfimex S.A. de C.V. **León, Guanajuato, Mexico**
Data Scientist Intern (Full-Time, Unpaid) *May 2026 - Aug 2026*
- Compiled and cleaned production and material-cost data from company Excel files using Python.
- Developed Dash and Plotly dashboards to compare costs by month, customer, and batch, with Codex assistance for coding and debugging.
- Created Pareto (80/20) charts to highlight the largest material costs and prepared monthly Excel summaries.

FinEx Concierge Solutions, LLC **Washington, DC**
Data Analyst Intern (Part-Time, Unpaid) *May 2025 - Aug 2025*
- Extracted and organized data from ABCA PDF reports using Python for a brief cannabis market research project.
- Created Python dashboards and Excel summaries to compare figures reported in the ABCA files.
- Summarized market research findings in charts and presentation slides.

RESEARCH EXPERIENCE

American University **Washington, DC**
Undergraduate Research Assistant (Part-Time) *May 2026 - Aug 2026*
Department of Mathematics and Statistics
- Implemented a matrix-factorization baseline in Python using MovieLens ratings, documenting the model and its evaluation in a Jupyter notebook.
- Evaluated rating-prediction error, top-10 recommendation quality, and the range of movies recommended across experiments with three random seeds.

PROJECT AND LEADERSHIP EXPERIENCE

George Hacks x UN Reboot the Earth Hackathon **Washington, DC**
Business & Presentation Contributor *Apr 2026*
- Collaborated with software engineering students on FoodBridge, a meal-planning prototype, contributing to its business concept.
- Presented FoodBridge with the team at a student hackathon, where the team placed 1st in the UN/FAO track.

Goldman Sachs Case Competition **Washington, DC**
Team Lead (Student Case Competition) *Apr 2026*
- Led a five-person student team in a case competition about a fictional university's endowment and funding needs.
- Assessed investment options with teammates against the case's budget needs and investment restrictions, and presented the team's recommendations.

SKILLS

Tools: Python, R, pandas, NumPy, openpyxl, Excel, Power BI, Plotly, Dash, Git/GitHub, Codex; SQL (coursework)
Methods: Excel/PDF data extraction, data cleaning, exploratory analysis, descriptive statistics, regression, data visualization, model evaluation
